

MASTERCLASS

MANIPULATION TECHNIQUES AND CLINICAL APPLICATION

Dr. Giovanni Bonfanti DO - Osteopath (Ost.Fr)

PRESENTATION

“The Masterclass” is an innovative formula in the field of health education; it is a more interactive formula and addressed to all professionals who wish to improve their performance in the clinical field thanks to the use of a tested and effective clinical reasoning, combined with simple and functional high and low-velocity manipulation techniques.

Dr. Giovanni Bonfanti will bring his long clinical experience and the techniques that have brought him over the years to a simple and extremely effective approach.

GOALS

- To Improve professional performances through a clinical reasoning and effective techniques, able to give immediate and better clinical results.
- To reduce length and frequency of treatments.
- To Obtain a clinical result that is immediately quantifiable by the patient, increasing his confidence

MAIN TOPICS

- Fast clinical evaluation
- Clinical reasoning
- The choice of techniques
- Low velocity manipulations (mobilisations, active & positional release, myofascial techniques)
- High velocity manipulation Reflex HVLA-Thrust

MASTERCLASS STRUCTURE

The masterclass spreads in n°2 days, for a total of 16hours course. The didactics consist in 30% theory, by frontal learning, and 70% practice. Overall it will be taught the most important concepts of clinical assessment and the most used full-body Reflex HVLA Thrust Techniques and LV (Low Velocity) Manipulations.

MASTERCLASS PROGRAM

MANUAL THERAPY PROJECT

Dr. Giovanni Bonfanti DO
20037 Paderno Dugnano – Milan - ITALY - Via Cavour 14
+39 02 4311 0984
<http://www.drbonfanti.com> – info@drbonfanti.com

DAY 1

Introduction

Generality about HVLA and LV manipulations

The Dysfunctional Complex

Fast clinical evaluation (protocol) – Spine and Hip bone

Clinical reasoning

The choice of techniques

The Low velocity manipulations (mobilisations, active & positional release, myofascial techniques)

High velocity manipulation Reflex HVLA-Thrust

Practical Sessions

09:00 Start session

10:45 - 11:00 Coffee Break

13:00 – 14:00 Lunch Break

15:45 – 16:00 Coffee Break

18:00 End session

DAY 2

Fast clinical evaluation (protocol) - Extremities

Clinical reasoning

The choice of techniques

The Low velocity manipulations (mobilisations, active & positional release, myofascial techniques)

High velocity manipulation Reflex HVLA-Thrust

Practical Sessions

09:00 Start session

10:45 - 11:00 Coffee Break

13:00 – 14:00 Lunch Break

15:45 – 16:00 Coffee Break

18:00 End session
